

HRCM's comments to draft Migration Profile shared by International Organization for Migration (IOM)

General comments

- Since many acronyms are used in the report, it will be useful to include an acronym list in the beginning of the final report.
- Proposed recommendations can be presented specifying the responsible key government body or agency.

Specific Comments:

D. Migration Governance

- To bring the section 'D. Migration Governance' which explains existing legal framework prior to the section 'C. Impact of Migration on Development' in order to enhance sequence of the document.

D.2.1 Migrant workers' admission procedures

- Prior to establishing the framework to determine labour shortages, mentioned under '3. Administrative review', it is proposed that a recommendation be incorporated to consult key stakeholders as well as to review existing policies to identify role conflicting issues in institutional framework, identify policy gaps and challenges.
